

The Flex System of Cabinetry

Providing Solutions for Accessibility and storage

Upper Storage Cabinet

Don't Settle for just Storage, Demand Efficiency

Cabinetry is more than just storage, but a system that maximizes the efficiency of a treatment room. The Flex cabinetry line is designed for accessibility, minimizing interruptions with a thoughtful design that emphasizes accessibility and safety. The rear and side cabinets feature rounded edges, helping doctors avoid painful accidents, and a natural aesthetic that will look right at home in your office. Its treatment-specific storage also helps keep your practice running smoothly. This seamless workflow enhances results and hastens procedures, bolstering your bottom line.

Designed with a Purpose, Designed for Flexibility

Upper Storage

Assistant Side Cabinet

The Flex System, Optimizes Storage and Accessibility for the Assistant

The Flex Cabinet system's features and accessories are conveniently stowed away to show patients an open and inviting space for their procedure. Mobile carts and side cabinetry allow both doctors and assistants to have easy access to their supplies while keeping them sanitary and protected. Doctors can return equipment back to its original position in a matter of minutes, readying it for the next patient.

This system comes in multiple configurations to best fit the specific needs of each doctor's practice and workflow. Innovative features and simple design will help maximize productivity, while maintaining a clean and relaxing environment for doctors, assistants and their patients.

The Cabinets are Designed to Work Together and Improve your Operatory Workflow

Cohesion is a key factor to keeping your appointments and procedures on track and on time. Not only can the Flex Line be customized to your preferences, but the fluidity that this system brings to your operatory will maintain balance in a complex dental ecosystem. Doctors, assistants, patients, and their caretakers can all feel comfortable and safe when you choose Belmont for your cabinetry needs.

Flexible Workflow 1

12 O'clock Rear Console & Dr. and Assistant Side Console

Patient Entry

Cabinet system features and accessories are conveniently stowed away to show patients an open and inviting space for their procedure.

Treatment

Mobile carts and side cabinetry allow the doctor and assistant easy access to all their supplies.

Post-Treatment
